Feb 2022-Sep 2022

Narayan Frumos Pvt Ltd

Developer

Narayan Frumos Pvt Ltd is a startup with a child company (The You) that focuses on youth-dedicated products for body care. I started working there as developer in their tech team.

Oct 2021-Jan2022

Team ERP Kiet

Frontend Developer

At the start of the 2nd year, I was selected in an organization where we manage the data of students, faculty, etc in the ERP portal. We created different modules of academics, attendance, marks, etc. It was great learning for me because its the first time for me to see how things work practically. There I worked on technologies like Html5, Css3, Bootstrap5, Tailwind CSS, Javascript, and AngularJs.

Projects

Covid Dashboard

In this, I have created a covid tracker dashboard that will represent how many cases are found per state. It includes confirmed cases, deaths, and recovered per statewide.
Github-https://github.com/Akshat2Jain/Covid_statewise_tracker_dashboard

Blogging Website

In this, I have created a blog app using reactjs. I have used the JSON server to create the rest API
Github-https:https://github.com/Akshat2Jain/blogapp_reactjs

Starbucks Website

In this project I have created a starbucks website using only tailwind css.
